2026 Edition

Who We Are

Switch Fintech is an independent advisory and technology powerhouse delivering integrated solutions across Management & Financial Consulting, Digital Transformation, Data Governance, Custom Software & App Development, Odoo ERP Implementation, and Human Capital Management. We empower enterprises to overcome structural challenges and achieve strategic goals with efficiency and sustainability.

Our Vision

To be the region's leading and most trusted partner in management advisory, financial consulting, and innovative digital solutions, building long-term strategic partnerships that empower business growth.

Our Mission

To deliver top-tier advisory and tech solutions grounded in deep market intelligence, converting strategy into actionable, scalable implementations that yield high ROI for our partners.

Our Core Values

1 Credibility

Prioritizing partner success with uncompromised precision, transparency, and strict adherence to commitments.

2 Integrity

Operating with the highest standards of governance, transparency, and business ethics in all engagements.

3 Empowerment

Unlocking the full potential of organizations through sustainable managerial practices and cutting-edge technology.

Why Choose Switch Fintech?

Deep Strategic Partnerships

We do not offer quick-fix solutions; we build long-term relationships aligned with your strategic objectives.

Bilingual Senior Experts

Our team brings decades of combined international experience delivering consulting in Arabic and English.

Tailored & Actionable Execution

We craft every strategy and digital system to fit the exact operational nature and goals of your enterprise.

High ROI & Competitive Value

Ensuring maximum return on investment through clear pricing structures and high-impact deliverables.

Our Core Service Pillars

1. Digital & Tech Solutions

Web & mobile apps, workflow automation, Odoo ERP, cloud & cybersecurity.

2. Financial & Business Advisory

Feasibility studies, GRC, corporate restructuring, and IPO readiness.

3. Data Governance & Analytics

Data quality, business intelligence dashboards, and AI predictive analytics.

4. Human Capital & Training

HR advisory, organizational policies, talent development, and training.

Digital Solutions & Odoo ERP Systems

Integrated Odoo ERP Solutions

Top Demand

End-to-end Odoo ERP implementation, module customization, and workflow automation: Financials & Tax E-Invoicing, CRM & Sales pipeline, Multi-warehouse Inventory, Purchasing, POS, HR & Payroll, and 24/7 Managed Cloud Support.

Odoo ERP Implementation

- Full customization of Accounting, Sales, Inventory, and HR modules.
- Automated electronic invoicing and tax authority integration.
- Multi-branch & warehouse management with fast Point of Sale (POS).

Web & E-Commerce Platforms

- Modern corporate web portals and interactive web applications.
- High-performance e-commerce platforms with payment gateway integration.
- Scalable architecture tailored for maximum security and conversion.

Cybersecurity & Data Protection

- Vulnerability Assessment & Penetration Testing (VAPT).
- 24/7 Security Incident Response and Monitoring.
- ISO 27001 & National Cybersecurity Authority compliance.

Cloud & Systems Integration

- Cloud infrastructure migration (AWS, Google Cloud, Azure).
- Custom API integrations and ERP business connections.
- AI automation tools to optimize operational efficiency.

Management & Financial Advisory

Project Planning & Advisory

- Comprehensive feasibility studies and financial modeling.
- Risk assessment, capital structuring, and investment plans.
- IPO readiness assessment and regulatory compliance checks.

Governance, Risk & Compliance (GRC)

- Corporate governance framework and policy formulation.
- Internal audit services and Anti-Money Laundering (AML) compliance.
- Enterprise Risk Management (ERM) strategy and implementation.

Data Governance & Advanced Analytics

Data Governance & Quality

- Establishing data quality standards, security, and integrity protocols.
- Compliance with Personal Data Protection Law (PDPL) regulations.

Business Intelligence & AI Analytics

- Interactive executive KPI dashboards and automated reporting.
- Machine learning models for predictive forecasting and decision support.
